

**Accelerating Industrial Transformation by Unlocking the Value From Equipment Data at Scale**

**11:00AM - 11:30AM | AWS**

Learn how AWS makes it easy to unlock data to provide a single view of live and historical insights that inform business outcomes.

---

**Bosch Digital Twin – IAPM – From Insights to Business Outcome**

**11:30AM - 12:00PM | BOSCH**

Learn how The Bosch Digital Twin—IAPM is structured with sensors, software, and services to bridge OT and IT and how it.

---

**Integrating Electrical Systems Easily – Accelerating the Path Towards Sustainability**

**12:00PM - 12:30PM | EUROTECH**

Discover how Eurotech drives digital transformation and sustainability through seamless OT/IT systems integration.

---

**The Machine Learning Revolution: How AI is Transforming Manufacturing**

**12:30PM - 1:00PM | AWS**

Learn how AWS AI/ML enables intelligent and optimized production methods for the new era of manufacturing operations.

---

**Unleashing the Future: How IoT Supercharges Industries with Smart Connected Products**

**1:00PM - 1:30PM | SOFTWARE AG**

Discover how SoftwareAG's Flexco platform enables real-time monitoring and predictive maintenance to reduce costs, increase efficiency, and streamline production.

---

**Revolutionizing the Digital Supply Chain: Empowering Data-driven and Intelligent Control and Visualization**

**1:30PM - 2:00PM | AWS**

Deep dive into the capabilities of AWS Supply Chain using AI-driven trend analysis, risk insight, and ML-powered lead time prediction.

**Computer Vision and AI for OEE and Automated Visual Inspections**

**2:00PM - 2:30PM | SOFTSERVE**

Learn how to combine robotics, computer vision, and neural networks to safely and efficiently automate OEE and visual quality inspections.

---

**Accelerate Digitization by Solving Network Issues and Enabling Data Solutions**

**2:30PM - 3:00PM | BELDEN**

Discover how Belden and AWS help manufacturers digitize more types of OT data that are unified, contextualized, and analytics-ready.

---

**Exceed Industry Solution Build Expectations with AWS**

**3:00PM - 3:30PM | AWS**

Learn how AWS and AWS Partners are developing new channels to address industry challenges and improve business outcomes.

---

**Navigating Cybersecurity Challenges**

**3:30PM - 4:00PM | AWS**

Learn how to navigate the top security challenges and find ways to start protecting your infrastructure from the increasing presence of cybersecutiy threats.

---

**Transitioning to Software-Defined Factories**

**4:00PM - 4:30PM | SOFTWARE DEFINED AUTOMATION (SDA)**

Find out how SDA drives innovation through scalable, robust, and economically viable automation solutions that unite user needs and company goals.

---

**Lowering Product Carbon Footprints**

**4:30PM - 5:00PM | MSG SYSTEMS**

Learn how customers are saving energy and reducing CO2e emissions in a targeted manner with MeterVerse.

### Revolutionizing the Road: Europe's Automotive Titans Embrace the EV Future with Gigantic Battery Plants and a Network Transformation Tale

11:00AM - 11:30AM | BELDEN

Learn more about how Belden Inc. aided a major European carmaker's shift from an automotive plant to an advanced battery facility.

### Scaling your Industrial Transformation Projects by Combining HighByte Intelligence Hub with the AWS Data Platform

11:30AM - 12:00PM | HIGHBYTE

Discover how HighByte uses Industrial DataOps to scale and maintain industrial transformation for manufacturers.

### 20% Reduction: Industrial Energy Management with AI and Digital Twins

12:00PM - 12:30PM | SOFTSERVE

Learn how Softserve worked with a vehicle manufacturer to reduce energy consumption using ML and digital twins.

### Accelerating Manufacturing Sustainability at Scale Through Cloud Computing

12:30PM - 1:00PM | AWS

Find out how IoT, AI, and other cloud technologies enable manufacturers to increase sustainability at scale across their portfolio.

### Bosch Digital Twin – IAPM - Make Machines Speak! by Bosch

1:00PM - 1:30PM | BOSCH

Learn how The Bosch Digital Twin—IAPM bridges OT and IT to help customers scale IIoT.

### 42Q As a Digital Enabler to Prepare for a Doubling of Production Volume

1:30PM - 2:00PM | 42Q

Hear about a 42Q case study that details the entire project, from planning and challenges to execution and results.

### Achieving Business Outcomes for Manufacturing Customers Faster

2:00PM - 2:30PM | AWS

Join AWS for a discussion on the solutions AWS Partners are developing to improve business models, time to value, and more.

### Changing the Game in Production in a Cloud Ecosystem

2:30PM - 3:00PM | AWS

Learn how Volkswagen established its Digital Production Platform (DPP) with AWS to detect critical vehicle robot cockpit assembly defects.

### Transition from Legacy Technologies to Cloud-based Production Data Access

3:00PM - 3:30PM | EMBASSY OF THINGS

Find out how Embassy of Things helped their customer tackle their operational bottleneck while revolutionizing access to their oil and gas production data.

### Ten Security Golden Rules for Industrial IoT Solutions

3:30PM - 4:00PM | AWS

Uncover the top security rules for connecting manufacturing's physical and digital worlds while building a secure foundation for your industrial IoT solutions.

### Drive Valuable Insights and Innovation by Implementing an End-to-end Industrial Data Strategy

4:00PM - 4:30PM | AWS

Learn how AWS Partner solutions Element Unify and HighByte Intelligence Hub optimize how manufacturers ingest, store, analyze, and act on their industrial enterprise data across the value chain.

### How Amazon Uses IoT for Real-time Inventory and Asset Data in the Executive Briefing Center

4:30PM - 5:00PM | CLOUDRAIL

Find out how the Amazon Executive Briefing Center (EBC) in Seattle is using AWS IoT, industrial sensors, along with integrations from Cloutrail to proactively monitor meeting room beverage inventory.

**20% Reduction: Industrial Energy Management with AI and Digital Twins**

**11:00AM - 11:30AM | SOFTSERVE**

Learn how Softserve worked with a vehicle manufacturer to reduce energy consumption using ML and digital twins.

---

**Accelerating Computer Vision Advancements in Manufacturing with Generative AI**

**11:30AM - 12:00PM | AWS**

Explore generative AI model applications for synthetic data generation that can train computer vision models for manufacturing.

---

**Bosch Digital Twin – IAPM - Make machines speak! by Bosch**

**12:00PM - 12:30PM | BOSCH**

Learn how The Bosch Digital Twin—IAPM bridges OT and IT to help customers scale IIoT.

**How can Digitalization Drive a Double-Digit Efficiency Improvement in a 95-year-old Plant?**

**12:30PM - 1:00PM | BELDEN**

Join Belden as they take you to a 95-year-old manufacturing facility to see its challenges and how OT and IT merged into one unified namespace.

---

**Solution Building Democratization**

**1:00PM - 1:30PM | AWS**

Learn how to drive business outcomes for your customers with AWS.

---

**Modernizing Your Historian by Migrating to the Cloud**

**1:30PM - 2:00PM | AWS**

Discover how AWS helps industrial leaders accelerate Industry 4.0, sustainability, and more by modernizing their historian in the cloud.
